Online Incident Tracking System Overview

Historical Overview

- Developed and released by DHH in April 2003
- Released newer versions of OTIS in March 2004 and April 2006
- Multi agency reporting
  - NF-Nursing Facilities
  - APS – Adult Protective Services (April 2003)
  - OCDD – Office for Citizens w/ Dev. Disabilities
  - OAAS – Office of Aging & Adult Services
  - ICF/DD – Intermediate Care Facilities/ DD

OTIS Reporting and Management Features

- **Web-based** system that is accessible to all approved users as long as they have access to the Internet.

- **Instantaneous notification** of incidents to HCBS Waiver State Oversight agencies

- **Filtering of Critical Incidents** to assist OAAS & OCDD Regional Staff with prioritizing work and tracking incidents that require immediate attention.

- **Ability to track submission timelines** to assure compliance with mandatory policy timelines

- **Secure** technical infrastructure that provides access to data only to those with approved roles.

- **Standard** requirements for reporting information—all users complete the same, standard fields and drop down values support trend analysis.

- **Reports** facilitate the identification of trends with individuals; specific providers; parish and statewide trends & patterns that can assist in targeting training, communication and other quality improvement initiatives.

The Benefits

This web-based incident management provides:

- The ability for support coordinators to file reports online 24 hours/day to automate incident reporting, management review and data analysis

- Significant reduction in paper handling

- Real-time access to incident information at all authorized levels

- Regional, parish and provider reports to target technical support and training needs

- Regional staff have the ability to triage incidents on a daily basis

Support Coordination Training Responsibilities for Waiver OTIS

SC agencies are Responsible for Waiver OTIS Training & Competency Validation

The most current training tools, forms & documents can be found on the OAAS W-OTIS Web page:

1. *OAAS/OCDD HCBS Critical Incident Reporting: Support Coordination Responsibilities* Power Point (Note: Available in electronic version or PDF for handouts).
2. Critical Incident Reporting Policies & Procedures OAAS

SC Training Tools Continued:

- 3.   DHH HCBS Critical Incident Report Form
- 4.   CIRF Supplemental
- 5.   CIRF Instructions
- 6.   OAAS Fall Assessment Form
- 7.   OAAS Fall Analysis & Action Form
- 8.   CIR Flow Chart Process: DSP/SC
- 9.   Major Illness Decision Tree
- 10. OTIS User Instruction Guide
- 11. OTIS Training Memorandum

W-OTIS PRACTICE: Prior to entering an incident in the OTIS live site SC's must first enter practice cases.

- SC supervisors should give new SC's a demonstration on the practice site.
- Follow the OTIS Quick Reference Guide instructions with the following exception:
- **DO NOT ENTER A REAL SITE & CASE NUMBER INTO THE PRACTICE SITE**
- Instead use the following:
- Practice Site #: 0000000 (seven zeros)
- Practice Case #: 0001, or 0002, or 0003

MEETING CIR TIMELINES

- **<u>SC List Cases</u>** allows SC's or SC Supervisors to track timelines and view messages from the Regional Waiver Office. It is found on the OAAS W-OTIS Web Page.
- Once logged in you have the ability to pull a list:
  1. Of all **SC Agency incidents** for a Date Range
  2. Of an **Individual SC's incidents** for a Date Range
  3. Of an **Individual Participant's incidents** for a specific date range.

MEETING CIR TIMELINES Cont.

- Unless you enter a specific Date Range it will be the previous 30 days
- Once a list has been pulled you can sort this list by:
    1. **Date Entered:** Date Entered must be by the 3rd business day after "Received from DSP or SC Notified DSP" for compliance.

    2. **Client**: Selecting this sort would allow you to see which clients had multiple incidents

MEETING CIR TIMELINES Cont.

3. SC Follow Up Due Date: This date is auto populated as the 6th business day after the date & time of: "Received from DSP or SC Notified DSP".

- **"Received from DSP or SC Notified DSP" must be entered at the time of first OTIS entry** or a due date will not be generated which will effect your individual and agency compliance with CIR timelines.

MEETING CIR TIMELINES Cont.

4. **Report Status**: Report Complete/Incomplete indicates whether the incident has been closed by the waiver office.

- **Case Closed**: A date will appear in the Case Closed column when Report Status is complete.
- **The participant summary must be given sent to the participant within 15 calendar days of the Case Closed Date.**

List Cases: "New Message?"

- The Regional Waiver office will frequently send messages related to a specific incident which usually require a response.

- The "New Message?" column should be checked as often as possible by the SC or SC Supervisor, "Yes" indicates a new message.

- Once the message has been opened the "Yes' will disappear from the "New Message?" column

List Cases: "New Message?" cont.

- The assigned SC should take the recommended action and document in the appropriate case note.

- If Yes reappears in the column it mean that another message has been sent.

Improving Participant Safeguards

- Information in W-OTIS will be actively monitored by Regional & State Waiver offices to enhance participant safeguards and identify training and quality improvement priorities.
- Your agency will have the same abilities through W-OTIS "SC List Cases".
- In the future SCA's will also see timeline compliance reports for their agency to enable continuous quality enhancement.
